HTML · CSS · JavaScript · TypeScript · React · Next.js · TailwindCSS · SQL · Firebase · Supabase · Express.js · Redis · Node.js · API's · Authentication · Figma · i18n · Responsive Design · Web a11y

Summary

Versatile Full Stack Developer proficient in React, Next.js, Tailwind CSS, and modern backend technologies, with a passion for building dynamic, high-performance web applications. Skilled in delivering clean, scalable code across both frontend and backend, with a focus on solving complex problems and driving innovation. Committed to continuous learning and adapting to emerging technologies, I thrive in collaborative environments and am ready to contribute across all stages of development, from design to deployment.

PROJECTS

Zephiview Center District, Israel

Zephiview - Web Analytics Tracker 12/2024 - 12/2024

- Developed Zephiview in just 1 week, tracking over 1,500 events across dozens of domains.
- Implemented 3 key features such as multi-domain tracking and report generation, providing detailed insights for users.
- Designed and integrated an intuitive user interface, reducing setup time by 30% for users with limited technical knowledge.

HanaTones Center District, Israel

HanaTones - Color Management Platform 10/2024 - 12/2024

- Developed a color management platform, serving 12 active users at launch.
- Implemented 5 core features, including custom color palettes and theme sharing, improving workflow efficiency.
- Partnered with another developer to launch the platform in 3 months, achieving all project milestones on time.

CodeLib Center District, Israel

CodeLib - Efficient Snippet Management System 09/2024 - 10/2024

- Led on-demand website publishing within two weeks using modern frameworks and a custom web stack, ensuring rapid deployment and seamless user experience.
- Implemented state management with Zustand, reducing bugs by 30% through efficient state handling and improving overall application stability.
- Created localization options for 10+ languages using a localization Next.js library, improving accessibility and expanding the user base across multiple regions.
- Optimized website performance for production, achieving a 95+ score on Google Lighthouse metrics through careful implementation of SEO best practices and performance tuning.

Education

Darca Begin High School Center District, Israel

Formal Education (12 - year program) 09/2019 - 01/2025

- Completed a study trend in CS with a score of 86/100.
- Studied web development independently, creating a highly-praised project in 3 months as part of my CS studies, focusing on full-stack technologies like HTML, CSS, JavaScript, SQL, and Express.
